

William Leighton

Full Stack Web Developer

Curriculum Vitae

00447932404942 / will_leighton@outlook.com / <https://github.com/willnjl> / <https://willnjl.github.io>

I'm an experienced Full Stack Developer with a background in fast-paced agency environments. I'm driven by opportunities to learn from exceptional people and solve complex problems. I thrive on crafting beautiful, accessible user experiences and bringing ideas to life. Outside of work, I enjoy live music, photography, exploring the great outdoors, and experimenting with new programming tools and languages.

/ experience

Web Developer (Full Stack) - Lunar Web Development

September 2024 - May 2026

<https://lunar.build/>

Engineered multi-modal enterprise-level web applications leveraging LLMs and advanced AI tools for high-profile SaaS clients. / Designed scalable solutions using modern MVC frameworks, ensuring stability through Cypress for automated E2E testing / Designed and implemented efficient, scalable solutions using modern tools and frameworks, with a focus on integrating complex AI capabilities. / Utilized Agile methodologies for task management and collaborative delivery of high-quality software. / Liaised with clients and stakeholders to gather requirements and provide progress updates.
